Curriculum Vitae CV

My passion for technology began at the age of 13 in the robotics club at the National Technical University of Odessa in Ukraine, where I spent four years building and programming robots.

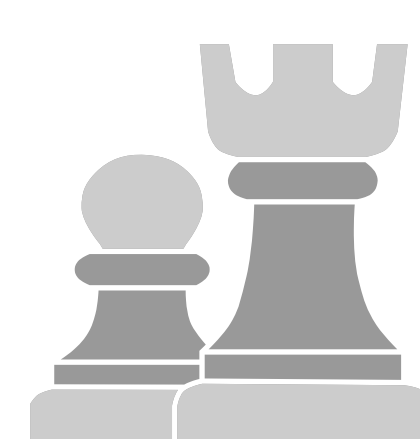

Even though I later graduated from a medical college, my passion for programming never faded. Today, I am firmly committed to consciously redirecting my career path and fully dedicating myself to the IT industry.

In addition, during my studies at the college, I volunteered at a hospital.

Education

- Odessa Lyceum No. 51 (2011-2020)
In Ukraine, I attended a lyceum for nine years.
- Regional Medical College Odessa (2020-2024)
I studied for four years at the medical faculty specializing in emergency medical services. There, I also received my compulsory school leaving certificate.

Hobbies

Chess

Sports

Activities

- 2017 - 2020
Robotics Club
- May - July 2022
Volunteering at a hospital
